PROPOSAL FOR SELECTED INDUSTRY

PROPOSAL FOR SELECTED INDUSTRY

This is a selected offer for Sponsors involvement in **Perinatal Science International (PSI)**, a radically new academic meeting that will provide a forum for senior perinatal researchers from diverse backgrounds to discuss planned collaborative programmes and trials with an expert, multi-professional.

The **meeting is focused upon developing and delivering the best research, engaging families, clinical colleagues, biotech and industry**, in order to bring tested products to market more quickly to benefit mothers and babies.

4 slots of 15/30 minutes plus discussion will be available for industries to discuss about their planned multicentre/international studies. These will provide opportunity to explain the scientific rationale, evidence to date, discuss the intended methodological approach, and obtain views and perspectives from delegates. The **intention is to facilitate the development of studies** that are acceptable to families and clinicians, meet regulatory requirements, and are feasible and cost-effective.

Special Project starting from 25.000,00 €
